## DIADEM®-750

Intensive green roof system #810103

Manual

**■** Green up the roof!

## **Application:**

Diadem-750 intensive green roof is an elaborate garden that encourages human interaction, and is engineered to allow a larger plant selection. This system is ideal where a suitable strong load-bearing structure is available and/or where rainwater management is required.

## **Installation instructions:**

Please follow the component and accessories installation instructions. Also follow the safety instructions for the use of gloves, glasses, and helmet while installing the green roof system.

**Installation Tools:**
