CascaDIA-80

Modular green roof system with excellent water retention capacity. #310207

Technical Data Sheet

■ Green up the roof!

The CascaDIA-80 green roof modular system offers an excellent water retention capacity beyond the common advantages of the modular green coof systems. The outstanding features are the easy handling (~40lbs/tray), high water storage facility (8.84 oz/SF), and the high degree of diffusion capability.

	Dim.	CascaDIA-80
Water flow rate	gal/min/lf	13.53
Tray / 100 sqf	pcs	42.66
Water retention capacity	oz/sqf	8.83
Height	inch	3-1/8
