

TRH-30-FF

210601

TRH are height adjustable gully extensions for terraces, made out of composite housing and step-profile grilles.

KEY FEATURES

- Low installation profile
- Easy to maintain
- Adjustable height
- Three standard sizes are available
- Durable hard plastic housing
- Grills also available in stainless steel

3-28-2011 We need to find a solution for fixing the grilles, and change the housing sizes for 18x18" and 24x24"

APPLICATION

Used on roof terraces built with pavers which rest on aggregate or pedestals. The TRH roof drain extensions ensure the drainage of roof terraces, and simplify access and maintenance of the roof outlets. In large terrace areas additional TRH product installations are recommended outside of the drains for controlling increased storm water volume.

SPECIFICATION

TECHNICAL DATA

Height: (inch)	30-4½"
Width: (inch)	11-13/16"
Length: (inch)	11-13/16"
Weight: (lbs/pcs)	7.71
Material Housing :	composite
Material Grating:	hot dip galvanized, or stainless steel
Housing Color: (RAL)	7032
Material requirement: (piece/piece)	1,01
Installation standard: (hr / piece)	0,40
Packaging unit: (piece/ pal.)	104
